Name:

School:

In your opinion, what's the main learning outcome for your students?

Have they understood the key aspects of cooperative entrepreneurship, its values and principles?

Have they acquired/developed some key competences, personal or social skills? Which ones?

What has worked particularly well?

What's missing? What aspects could be improved?

From your personal point of view, what are the main takeaways from this experience?

Do you feel inspired to continue promoting cooperative entrepreneurship back in school? If YES, How?
